September 10, 2019

Information for exchange students in spring 2020

Duration spring 2020: 1 February to 30 June 2020
Deadline: Application and documentation 15 October
Semester start: 1 February

Application: The nominated students need to submit their application in our online Application Portal no later than 15 October 2019.
The portal is now open and link to the portal can be found on www.exchange.aau.dk

How do students apply?
Nominated student(s) need to create a profile in the Application Portal and use it to submit their application for exchange with us. All communication regarding the application will happen via the Application Portal. Applicants will receive a notification in their personal email when there is a new message for them in the portal. It is very important that, throughout the application process, they check and act on their portal messages within the shortest of delays.

Students are required to pay special attention to language documentation requirements. Further information on the application process can be found on www.exchange.aau.dk

Please note that we only receive applications via the Application Portal. Applications or other documents received via email or other channels will not be considered.

Choosing the study programme
Exchange at Aalborg University is somewhat different from exchange at another Danish university. This is due to the Problem Based Learning method.

Our study programmes are essentially package deals. There is not a course selection as such, as the semesters are pre-planned and stated in the curriculum. For more information on what students should expect at AAU and how to find courses, please go to https://www.en.aau.dk/education/apply/exchange/#386657

Students can only choose course packages with the study board(s) that are covered by the exchange agreement with HSH as an exchange partner. E.g. if your university has an agreement with the study board of Computer Science at AAU, students cannot choose a course package from the study board of Media Technology.

Best Regards

Mette Søderup and Rikke Sørensen
